Attn: Residents - Town of Emo

Re: Notice of Construction – Emo Watermain Replacement

Notice to All Residents of the Town of Emo

Our firm, S. Burnett & Associates Limited (SBA), has been retained by the Town of Emo to manage the construction of the watermain and storm sewer replacement project. This work will be completed on Florence Street and King Street. SBA has retained Makkinga Contractors to complete this project.

The purpose of this notice is to advise residents of the upcoming construction activities scheduled to begin in June 2026 and continue into October 2026. During this time, construction works will be carried out between the hours of 7am and 7pm, with working cycles of 10 days on and 4 days off. The work will include watermain, storm sewer, service line, and fire hydrant replacement. Temporary watermain will be in place to ensure water supply to residents is maintained.

Health and Safety Awareness:

- Noise – You may experience noise as a result of construction.
- Vibration – You may experience some vibration due to the ongoing work.
- Dust and Mud – There may be increased levels of dust and mud near the work site (especially with high winds).
- Traffic Delays – Lane closures are sometimes necessary during open cut construction. You'll see personnel controlling traffic and heavy equipment such as excavators onsite.
- Open Trenches – Do not enter any open trenches.

Throughout construction activities, SBA and Makkinga will have staff on site to provide construction updates, as well as answer any questions or concerns. We apologize for the inconvenience and thank you for your cooperation and patience during this project. Should you have any questions, please contact Connor Messner, Civil Engineer at 519-217-0762.

We appreciate your cooperation during this time.

Yours truly,

Connor Messner, P. Eng

Civil Engineer

S. Burnett & Associates Limited
